GIOIRE

From the Founder

“There are moments in the middle of the day when, out of nowhere, a smile sneaks up on you. Those tiny windows of joy, opening unexpectedly, are so very precious. Every night, just before I drift off, I reflect on the day and recall those fleeting moments, realizing more and more that joy is always with us—whether we notice it or not. It’s a thought that is both mesmerizing and deeply soothing.

We live in a world of shapes and forms: they surround us in nature, objects, and even in a glance. They define our reality and resonate within us, leaving imprints on our very essence. Some of these shapes make such an impression on me; they carry messages that demand to be shared. That’s how the Abhika collection comes to life: a visual expression of the glimpses of beauty that captivate me, an invitation to explore the joy that moves through us and... how it flows.”

—Claudia De Gasperi

Joy is within us, no matter what

SECTION 01

Celebrating spaces

Welcoming guests is an invitation to share the atmosphere that defines us. Whether it's an intimate dinner or a special celebration, the true highlight of every gathering is connection. Shot in Villa Baglioni with magnificent Tiepolo's frescoes as a backdrop, the objects that fill our spaces create a personal language, expressing our essence and letting joy flow through every detail.

Bone Mosaic

Bone has a symbolic allure—embodying resilience and strength. The Bonnie sideboard is truly unique, with its exquisite bone veneer and brass handles adorned with malachite stones, known for its purifying, meditative qualities. This piece brings a sophisticated allure to any room. A sideboard made to decorate, organize, and preserve treasures.

Stripy

Stripes are a constant in Abhika collection. These geometric lines suggest structure and boundaries, yet when paired with contrasting colors they create a lively and unexpected flair. Alternatively, with softer hues, the repetition of stripes creates an optical effect, making the colors appear to shift, blurring the lines of reality.

Fringes

In the ancient world of trimmings, fringes are among the most charming and alluring decorations. When paired with clean geometric shapes and balanced in proportion and color, they elegantly soften the minimalistic lines of modern design. Adding rather than subtracting to achieve a delicate effect is an art that requires true restraint.

Side Tables

Pairing furniture and accessories creatively can be one of the most satisfying aspects of interior design. A single armchair is just an armchair, but paired with the perfect side table, it transforms into a cozy nook—ideal for sharing moments with friends or unwinding alone with a cup of tea. Side tables are small but useful—don't underestimate their impact!

SECTION 2

Metaphysical Visions

Stepping beyond conventional aesthetics can feel risky—perhaps ‘adventurous’ is the right word. In our digital and pop-driven era, Abhika adds iconic objects that nod to the past, while updating them with contemporary colors and materials. From sleek brass vases to lush velvet sofas in pastel tones or massive cromed surfaces, these challenging choices bring an unexpected effect, always leaving a door open to the impossible.

Jellybean

If it was a pastry, you would want a taste of every flavor! That's how we like to think we've won over customers with the Jellybean pouf. A youthful star of the collection, this versatile piece in tonal velvet or playful hues combinations can change form and color simply by flipping it. Comfortable, sturdy, and reversible, it works with endless color pairings.
