SISTEMA All-aroundD

Intraprendiamo un nuovo percorso nel mondo della cucina.

La meta sono ambienti in sintonia con il personale viaggio di chi li vive.

Il mezzo è All-aroundD, sistema che soddisfa ogni esigenza di cucine contemporanee componibili.

Dà l'addio alle collezioni attraverso la trasversalità.

Destinazione: un mondo completo, versatile, All-aroundD, che inizia con la "A" di Aspen, e le sue peculiarità sostenibili, e finisce con la "D" di dimensioni (23, 20 e 12 mm).

Scelto lo spessore dell'anta o la sua tipologia, il gusto del cliente guida fra i materiali sino a definire la sua, personale, cucina.

We are undertaking a new path into the world of the kitchen. The destination is all these spaces in harmony with our own soul. The way we do it, is All-aroundD, a system that fulfils the need and expectation of a contemporary and modern kitchen. Say goodbye to several collections with the new concept of transversality. Our goal is a complete and versatile system, All-AroundD, that begins with the "A" of Aspen and its eco-sustainability values and ends with the "D" of dimensions (23, 20 and 12mm). Once the door thickness or the door type have been chosen, the customer's taste will guide them through several materials to the final destination; their own, personal kitchen.

Vamos a emprender un nuevo camino en el mundo de la cocina. El fin son ambientes en sintonía con el viaje personal de cada persona. El medio es All-aroundD, un sistema para los que buscan cocinas modulares contemporáneas. Se despide de las varias colecciones a través de la transversalidad. Nuestro objetivo, un mundo completo y versátil, All-aroundD, que comienza con la "A" de Aspen y su alma ecológica, y termina con la "D" de dimensiones (23, 20 y 12 mm). Una vez que se define el grosor o el tipo de puerta, el gusto del cliente lo guía a través de los materiales hasta definir su propia cocina persona.

Nous allons entreprendre un nouveau parcours dans le domaine de la cuisine. La destination ce sont des ambiances en harmonie avec le voyage personnel de celui qui les vivent. Le moyen est All-aroundD, un système qui satisfait toute exigence de cuisines modulaires contemporaines. Dites adieu aux collections basées sur la transversalité. Notre but : un monde complet et polyvalent, All-aroundD, qui commence par la "A" d'Aspen et ses valeurs éco-soutenables et termine par la "D" des dimensions (23, 20 et 12 mm). Une fois que l'épaisseur ou la typologie de la porte ont été choisis, le goût du client le guide parmi les matériaux jusqu'à définir sa propre cuisine personnelle.

Wir gehen einen neuen Weg in die Welt der Küche. Das Ziel sind all diese Räume im Einklang mit unserer eigenen Seele. Die Art und Weise, wie wir es tun, ist All-aroundD, ein System, das die Notwendigkeit und Erwartung einer modernen und modularen Küche erfüllt. Verabschieden Sie sich von mehreren Kollektionen mit dem neuen Konzept der Transversalität. Unser Ziel ist ein komplettes und vielseitiges System, All-AroundD, das mit dem "A" von Aspen und seinen Öko-Nachhaltigkeitswerten beginnt und mit dem "D" der Dimensionen (23, 20 und 12mm) endet. Sobald die Türdicke oder der Türtyp gewählt wurde, wird der Geschmack des Kunden ihn durch mehrere Materialien bis zum Bestimmungsort führen; seine eigene, persönliche Küche.
